

Links Across Products

Quick navigation to other apps, sections, or functions is available from the top level of navigation. This also serves to market apps that the user might not have yet.

Graphy Photo Management (Mac OS), My Social Portal (iOS), Make Suite (web), CirclePlace (web)

January 2020

Previews in Navigation

Previews of information appear in lists of content, guiding the user’s eye to the items that matter most.

DevPlaats (web), Weathere (iOS app), Health Daily (iOS app), Budgetary (iOS app)

Out-of-the-Way Navigation

Navigation can be minimized or moved so that it's out of the way and not distracting from whatever's on the canvas.

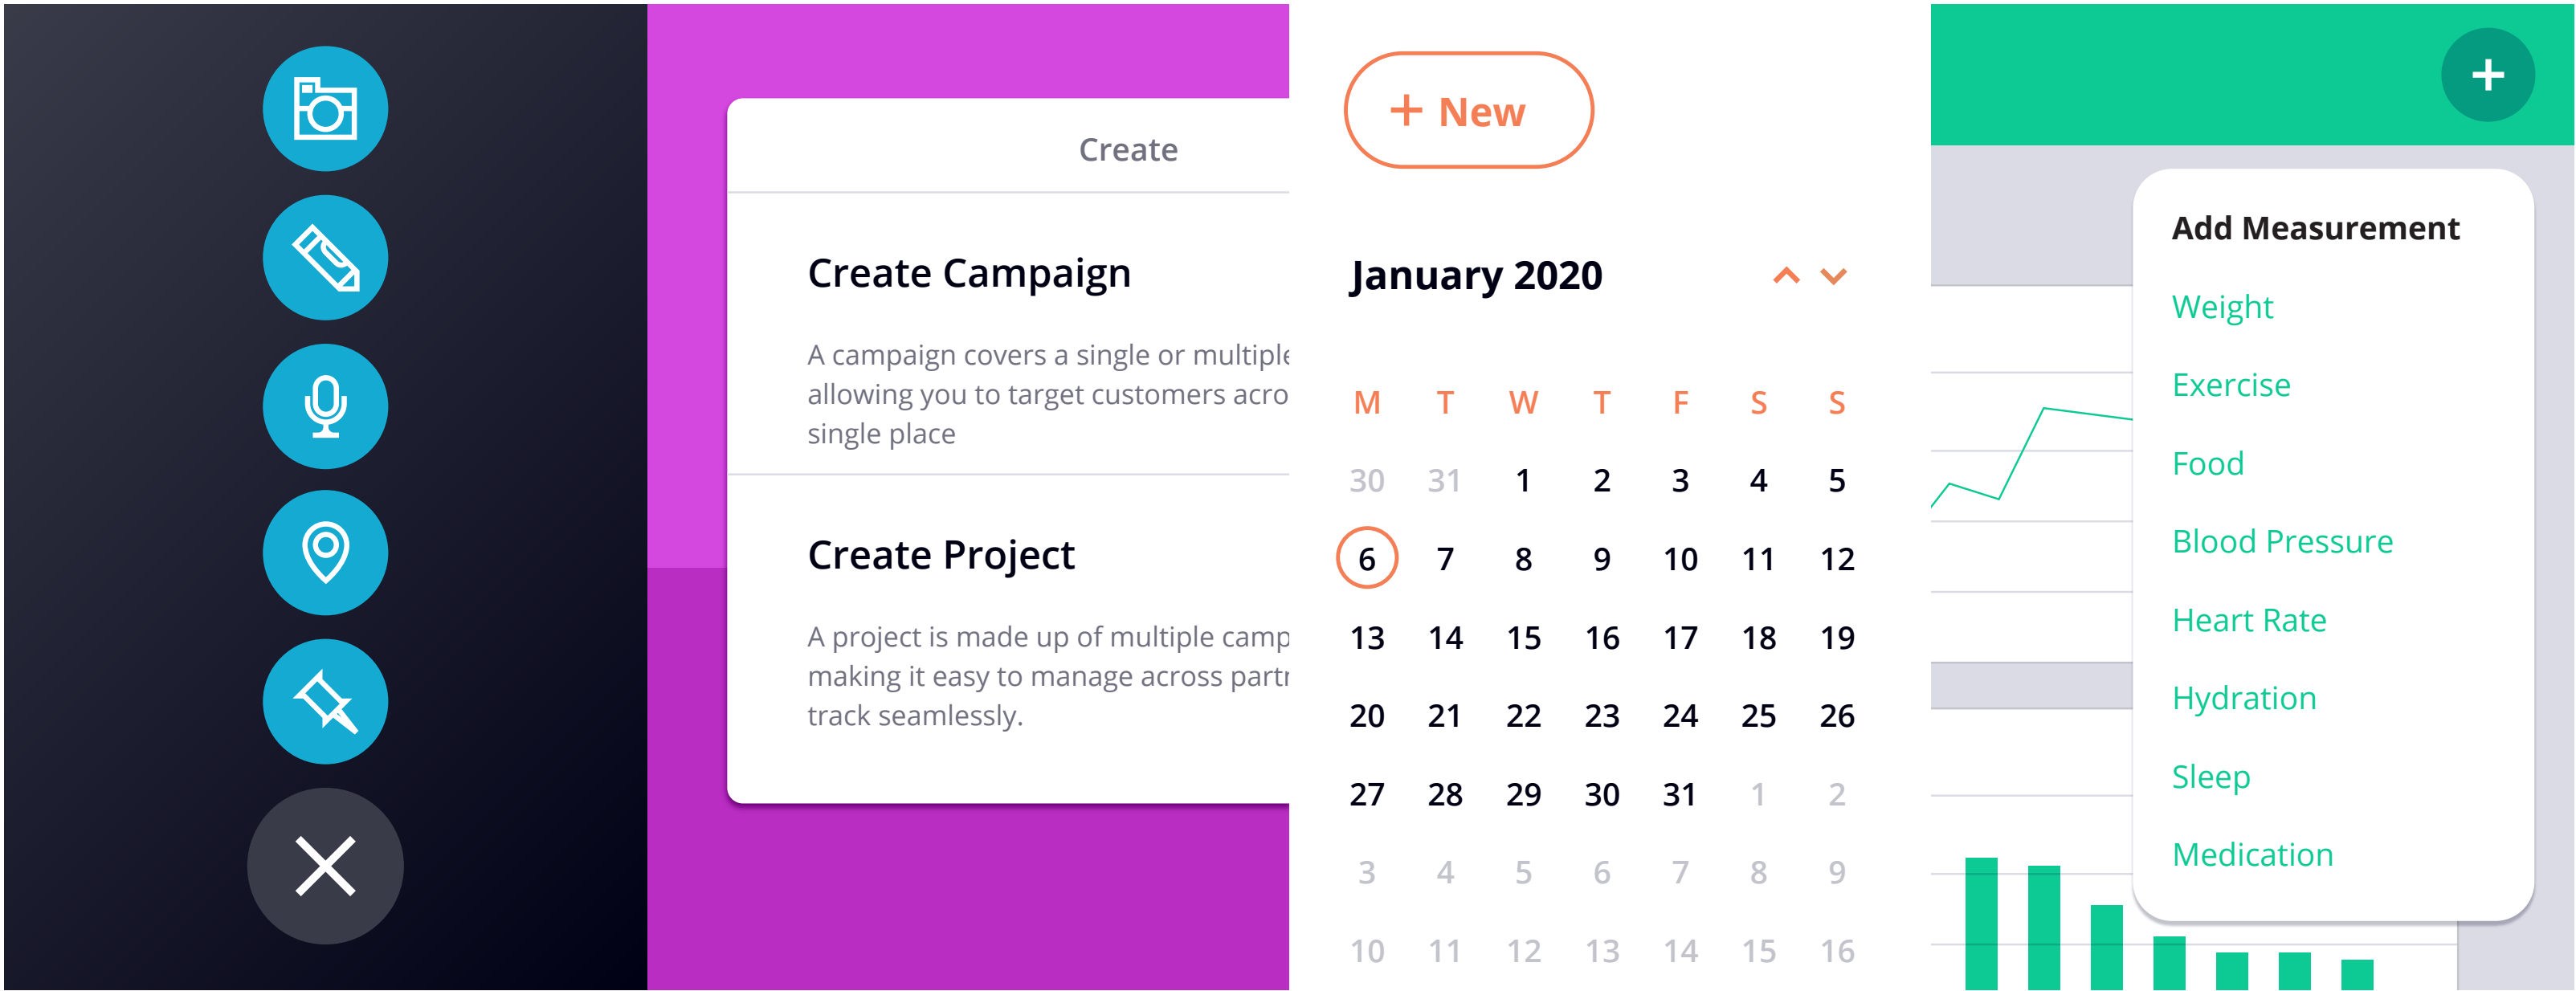

HuisVinder (Mac OS), Make Suite (Mac OS), Tiger Management (web), CCalendar (web)
January 2020

Action Buttons

A single button is used for adding many types of information.

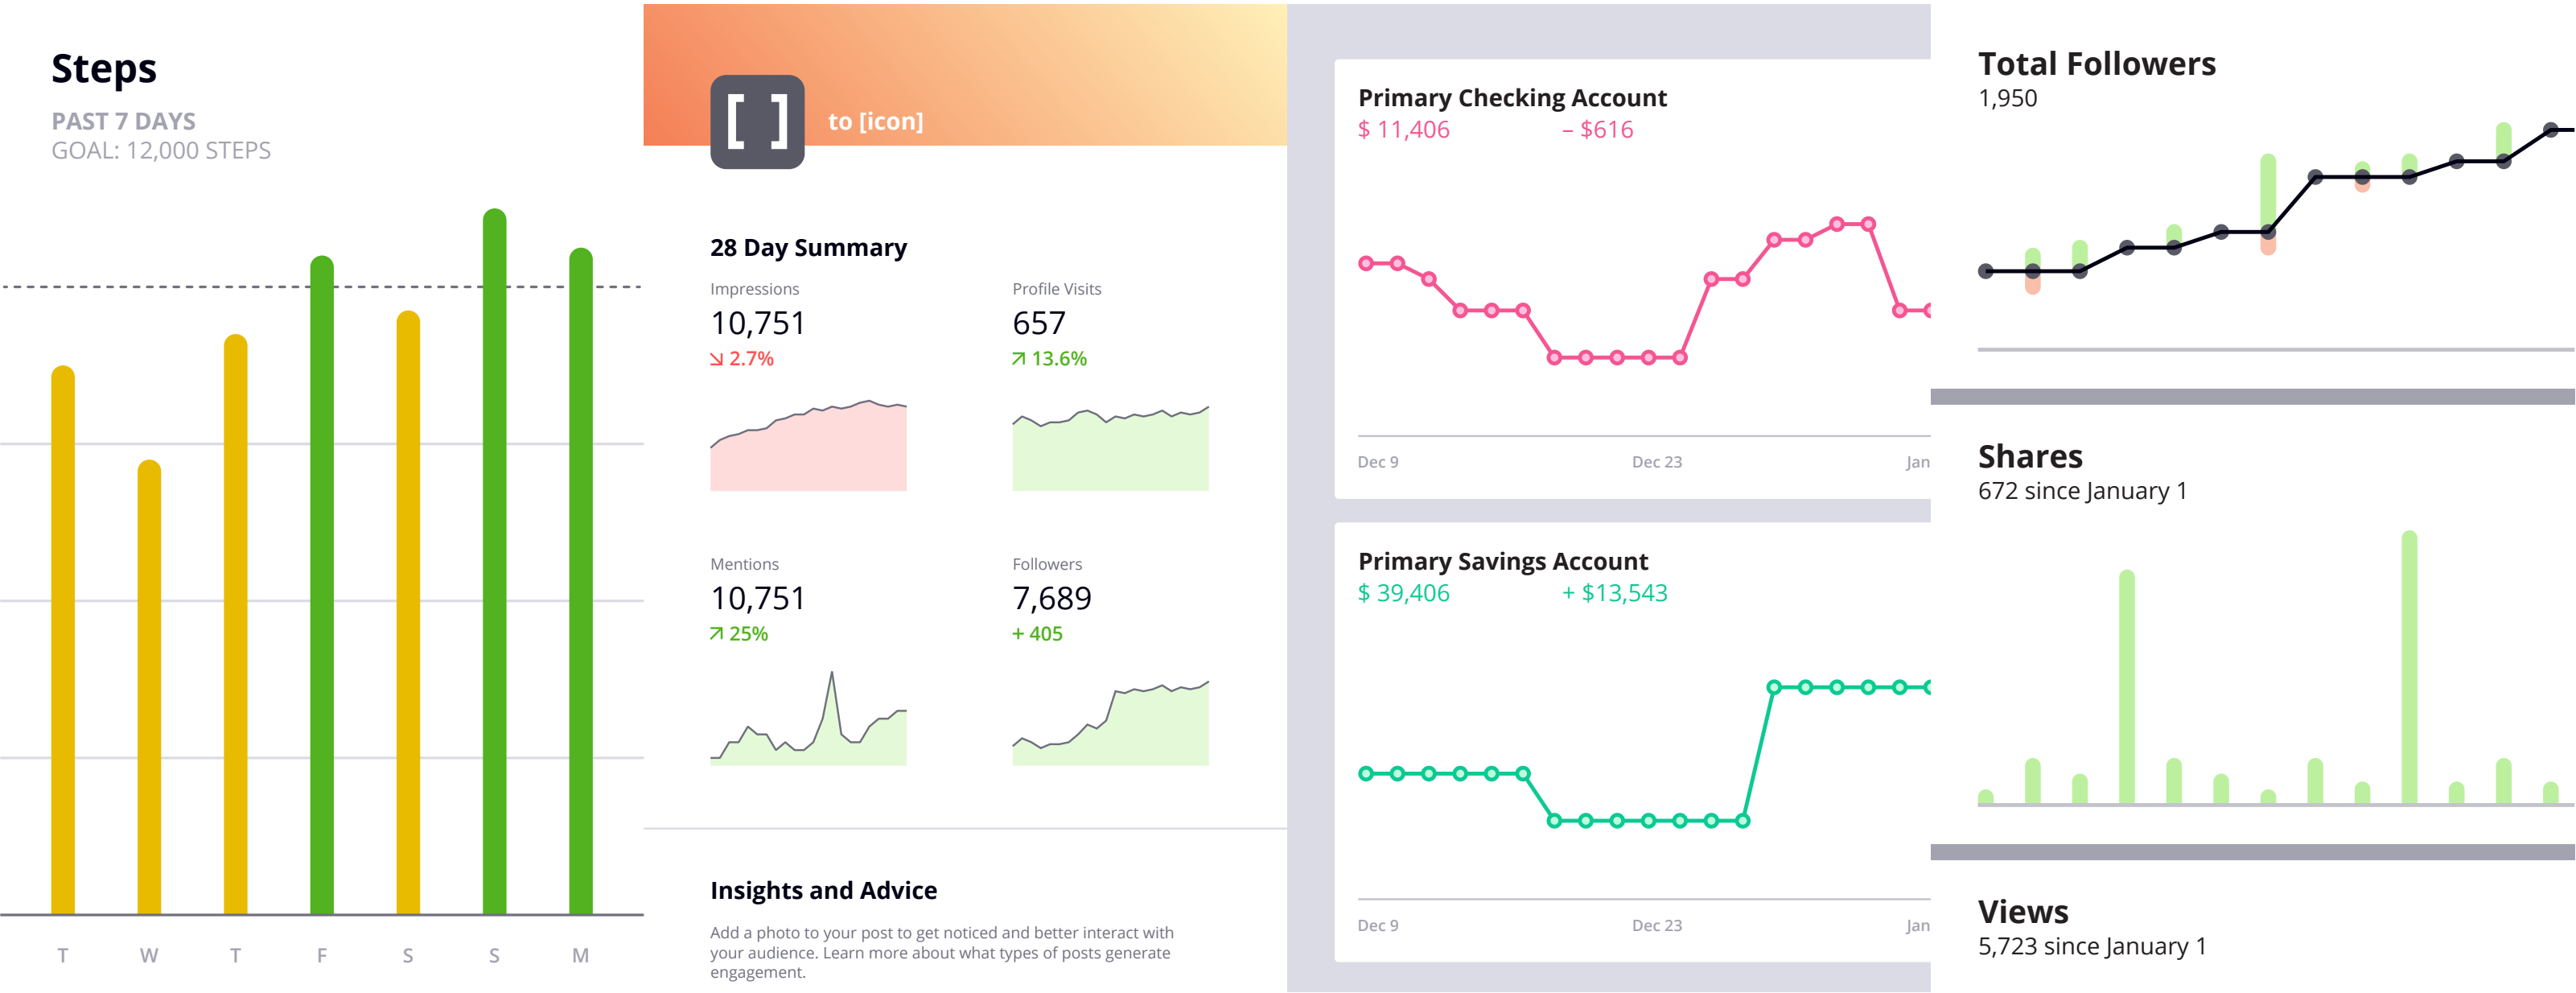

Imposter (web), CirclePlace (web), Ducky Calendar (web), Measure (web)
January 2020

Positives and Negatives Highlighted

Color guides the eye to positive and negative trends and outliers across all visualizations.

Health Daily (app), Chirp Chirp (web), Million (web), FSI Pro (web)
